Five additional courses from (iii) and (iv) below.

(iii) At least three MATH courses numbered 3000 or above:

(iv) At least one course dealing with mathematical models. Eligible courses include MATH 3610 and any course outside mathematics with serious mathematical content that deals with scientific matters. Serious mathematical content includes, but is not limited to, extensive use of calculus or linear algebra. Any course from another department that would satisfy one of the other concentrations may be used.
